

## The Market Handicap

Year	Name	Calling	Winner	
1992-93	Garry LeGet	Agriculture	Sub Zero	This very cool horse has been in the long yard for a while now and does enjoy rolling in the clover. It will be interesting to see if it can come back from retirement.
1993-94	Don Jones	Contract Painting	Vintage Crop	In very bright colours this year (Contract painting) but as one of the vintage crop might find the going tough against some of the younger horses in the field. Does benefit from the work on the beach at Portsea.
1994-95	Dick Mitchell	Capital Investments	Jeune	We don't see this horse turned out often these days and I'm not sure it can run the journey. Then again none of our capital investments have done that well lately. Have they!
1995-96	Don Kerr	Corp Mgmt- Locum Services	Doriemius	You don't need a Civic Guide to find this horse in the field. He was chestnut before loosing his hair. Like Doremius ranks as a real stayer .
1996-97	Richard Seeley	Real Estate	Saintly	This distinctively grey horse has a saintly air about him. Like many of his real estate colleges finds the going easy on a good track, but the heavy tracks of the last twelve months may not be to his liking.
1997-98	Colin Campbell	Commercial Vehicles	Might and Power	Like those trucks that Colin sells he has the might and power to perform strongly.
1998-99	Lindsay Jones	Rural Water Supplies	Jezabeel	This unassuming horse is in fact a bit of Jezabelle. Don't underestimate this scheming horse. Is looking in pretty good condition and must be enjoying good pasture and water supplies.
1999-00	Eric Gilford	Radiology	Rogan Josh	Eric Gilford, rumoured to enjoy a Rogan Josh. I could see this horse with a late run passing right through this field.
2000-01	Barbara Paton		Brew	Scratched
2001-02	David Harris	Consulting- Environmental	Etheral	An Etheral performance to win in 2001, but connections will be consulting the environmental predictions for this race. He prefers a slow track. (Harris Tweed ran in 2009)
2002-03	Paul Mulqueen	Family Law	Media Puzzle	A bit of a media puzzle, as you might expect from someone in family law. Always ready with something to say. We will have to see what his performance this race says about his fitness.
2003-04	Eric Davey	Interior Design	Makybe Diva	Eric Davey, or is that pronounced Diva. Clearly has interior designs on winning the race and again benefits form those the sea air at Flinders.
2004-05	Jim Cary	Dentistry	Makybe Diva	MD, I think stands for mad dentist. We will have to see what the jokey can extract from this horse on a good track. If he wins it will crown a good carnival for connections.
2005-06	Trevor White	Tertiary Education	Makybe Diva	MD (Mulga Dill). I spoke to the jokey as I was a bit concerned about him wearing licra rather than traditional silks. He replied. "see hear young man..."
2006-07	Hugh Trumble	Computer Software	Delta Blues Maybe Better (3 <sup>rd</sup> )	Has had the blues since a win in 2006 and maybe better this year. Not much information or communications about this horse. It may that technology has let us down again.
2007-08	Bob Batrouney	Clothing Importing- Sleepwear	Efficient	Always efficient and ready for a challenge, don't underestimate this one. Another import and wearing colours that like more like pyjamas.
2008-09	Andrew Mitchell	Health Care- Manufacturing	Viewed	Following last years win and an outing at the country races in Port Douglas this stallion has been put out to stud and is taking care of his health.(spending his time on the massage tables)
2009-10	Bill Goodwin	Architecture	Shocking	If he draws well (which he can) this horse will be in with a showing. I must say though that your efforts with the Ukulele were shocking.
